

## Assignment 2: Infographic

### Purpose:

This assignment encourages creative expression and deep reflection on key concepts. It helps you practice translating academic content into a format that is accessible and engaging for diverse audiences.

### Task:

Design an infographic that captures the concepts from the workshop that resonated most with you and outlines your plan for implementing them in your teaching. Use any software or tool that you prefer (Canva, Piktochart, etc.).

1. Choose 2-3 key concepts from the workshop.
2. Represent these concepts visually in a way that is easy to understand and engaging.
3. Include a section on how you will implement these concepts in your teaching.

### Criteria for Success:

- The infographic should be visually appealing and easy to understand.
- It should clearly convey 2-3 key concepts from the workshop.
- Implementation plans should be specific and actionable.
- Creative use of design elements (colors, icons, fonts) to enhance communication

### Submission:

Upload your completed submission to the appropriate Category Assignment page:
