

Academic Integrity Policy Agreement

By completing this item you acknowledge you understand and will abide by this course's academic integrity and digital media content and recording policies as stated in the course syllabus and as presented at [the Student Conduct and Academic Integrity Programs Office website online](#).

You must complete this item to gain access to the course content.

ACADEMIC INTEGRITY AGREEMENT

I agree to adhere to University Policy 102.01, which prohibits "All forms of academic misconduct including but not limited to cheating, fabrication, plagiarism, or facilitating academic dishonesty."

UC Riverside's Academic Senate Policies & Procedures on Academic Integrity further defines academic misconduct as "any act that does or could improperly distort student grades or other student academic records."

Cheating. Fraud, deceit, or dishonesty in an academic assignment, or using or attempting to use materials, or assisting others in using materials that are prohibited or inappropriate in the context of the academic assignment in question.

Unauthorized collaboration. Working with others without the specific permission of the instructor on assignments that will be submitted for a grade. This applies to in-class or take-home tests, papers, labs, or homework assignments. Students may not collaborate without faculty authorization.

Fabrication. Making up data or results and recording or reporting them, including laboratory or field research results. In the context of student academic integrity, this also includes falsifying academic or university documents and providing false information or testimony in connection with any investigation or hearing under this policy.

Interference or sabotage. Damaging, removing, or otherwise harming another student's work or University materials and systems to affect the academic performance of others.

Plagiarism. The appropriation of another person's ideas, processes, results, or words without giving appropriate credit. This includes the copying of language, structure, or ideas of another and attributing (explicitly or implicitly) the work to one's own efforts. Plagiarism means using another's work without giving credit.

Failure to comply with research regulations such as those applying to human subjects, laboratory animals, and standards of safety.

Facilitating academic dishonesty.

Assisting another in violating the policy of Academic Integrity, such as taking an exam for another student or providing coursework for another student to turn in as his or her own effort.

Retaliation of any kind against a person who reported or provided information about suspected or alleged misconduct and who has not acted in bad faith.
